Mr Jonathan G. Cwern  
Patent Examiner  
U.S. Patent Office  
Subject: Application 10/801,922, Art Unit 3737

Dear Mr. Cwern

Thank you for your guidance to correct our patent write-up.

In our proposed patent application, we have covered both the apparatus and method for non-invasive cancerous tissue diagnosis and tomography using terahertz imaging.

We elect apparatus for diagnosis of tissue with the associated Claims 1 and 8-14 of the original application at this time. We made this election with traverse. Claims 2-7 and 15-27 of the original application drawn to a method for diagnosis of tissue are cancelled without prejudice.

Please do not hesitate to call me at 858- 583-0069 if you have any comment or question. Please note the correspondence address and addressee have changed to:

Manouchehr Motamedi (second inventor)  
1002 Ancrum Hill Lane  
Sugar Land, TX, 77479

The change of address has already been conveyed to the Patent office by filing the form PTO/SB/122

Sincerely,

Ali Dabiri, Inventor
